

Dear Farm Families,

Sadly we must notify you that we will not be having our Summer Farm Camp. We have been considering camp options for many weeks as we awaited government direction from the Suffolk County Health Dept. We have studied camp guidelines from the state, county, Centers for Disease Control and other associations. The testing and process that we would need to complete in order to achieve a healthy environment for your children and our staff would transform our camp experiences into a program that simply would not rise to the enriching, fun, educational and magical standards that make our sessions appealing each year. As a result, we have made the extremely difficult decision to cancel our traditional Summer Farm Camp 2020.

Since traditional Benner's Farm Summer Camp is not plausible, we have been studying alternate programming for your family, (our farm friends), for the 2020 summer. We know that the sequester has been devastating to normal family outings and all children's programs. Our camp staff is working on smaller summer programs and family visits that could substitute our traditional camp and farm experiences. The safety of our family, friends, coworkers and customers remains our highest priority so we have taken all the necessary steps to fight this virus and flatten the curve.

We are working with our staff this upcoming week to

finalize these special summer programs or visits and expect to have a list of possibilities soon. We will design these offerings to minimize risks to our visitors and staff. We know that you choose Benner's Farm to enhance your children's knowledge, imagination and unique experiences. We are heartsick that we can't watch your child's imagination grow, watch them discover and expand their worlds this summer at camp. We hope that we will be able to sing, dance, laugh, explore and play with them again very soon. Be on the look-out for a new list of "Summer-Programs" at Benner's Farm in the upcoming weeks

Starting the week of June 22nd, we will offer "Private Family Farm Tours" for up to 10 people. Join us for an hour as we walk through the farm, visiting the animals and gardens and finishing with a fun hay-ride around the farm grounds. Click here to book your tour
